

To whom it may concern,

I am a suscriber to XM Radio and I am also an over the road truck driver who finds it invaluable to have weather updates and other traffic updates in areas I am traveling. This is for my saftey and the saftey of others on the road.

Since I have suscribed to XM Radio, it provides hours of entertainment as I do my job making television a thing of the past for me.

As a taxpayer, I would appreciate you using my tax dollars to deal with more important issues such as the economy, roads and transportation, health care, schools.....you get the picture, let's keep it real!

Daniel
